

SAN DIEGO ASSOCIATION OF GEOLOGISTS

Meeting Notice

THIS

Date: Thursday, November 21, 1974

Speaker: Mr. John Hogg, Mining Geologist. John spent five years as the field mapping exploration manager for Stockdale Exploration, a subsidiary of Anglo-American Mining Corporation.

Topic: Geologic Aspects of Diamond Exploration in New South Wales, Australia.

Time: Social Hour 6:00 PM
Dinner 7:00 PM
Speaker 8:00 PM

Location: Jolly Ox Restaurant, Mission Valley
881 Camino Del Rio South (South side of Interstate 8 between Highway 163 and Mission Center Road)

Reservations: Please call Dennis Hannan by 4 PM Wednesday, November 16, 1974, at 280-4321.

Announcements

Reward!!! A \$100.00 reward is being offered to anyone who can give us a tip that leads to the recovery of the lost(?) AAPG-SEPM-SEG 1974 Baja Field Trip Guidebooks! Please contact Dennis Hannan at 280-4321.

The Annual South Coast Geological Society Field Trip was attended by Bill Elliott, Dennis and Bev Hannan, Ray Scaramella, and Al Venton. The highlight of the one day bus trip on October 12, 1974, was the opportunity to see the Portuguese Bend Landslide on the Palos Verdes Peninsula. You think we have problems; this slide is about 6,000 feet long and 3,000 feet wide and still moving!!

Don Fife has been promoted to a desk job.... he will be reviewing the Hospital Geologic/Seismic Reports for O.A.C. He will be tying the strings on a very interesting field study of the northern ends of the San Jacinto and Elsinore Fault Zones before he settles into reviewing these reports which now require the signature of a C.E.G.

The Nominating Committee for 1975 S.D.A.G. officers met on October 24th and has nominated the following people to direct the activities of the Association in 1975:

Chairman	Dennis Hannan
Vice Chairman	Ray Scaramella
Secretary	Les Reed
Treasurer	Frank Kingery

Board of Directors:

Bill Ganus
Jerry Pinckney
Ken Sherrod
Mike Hart
Buck Parker

The Election will take place at our regular meeting on December 19, 1974.

George Moore announces the following new publications available from the U.S.G.S., Denver, Colorado:

Vedder, J.G., and others, 1974, Preliminary Report on the Geology of the Continental Borderlands of Southern California: U.S. Geol. Survey Map MF-624, 34p., 9 map sheets, \$4.50.

Ziony, J.I., and others, 1974, Preliminary Map Showing Recency of Faulting in Coastal Southern California: U.S. Geol. Survey Map MF-585, 8p., 3 map sheets, \$1.50.

Bill Elliott is now working for Fugro in Long Beach. He has taken on the responsibilities of a project geologist in a fault study of the Juvenile Hall which was damaged in the 1971 San Fernando Earthquake.
