

SAN DIEGO ASSOCIATION OF GEOLOGISTS

JULY MEETING ANNOUNCEMENT

DATE: Thursday, July 22, 1976

TIME: Social Hour - 6:00 p.m.

Dinner - 7:00 p.m.

Speaker - 8:00 p.m.

LOCATION: Caesar's - Mission Valley
5010 Mission Center Road,
San Diego, California
(order from menu plus \$0.75 gratuity)

SPEAKER: Mr. C. G. (Mike) Bemis - Mike is well-known to most of us as co-founder and past chairman of SDAG. He is a graduate of San Diego State University, and has worked previously with both the California Department of Water Resources and California Division of Highways, Bridge Department. He currently holds the position of Project Engineering Geologist with Woodward-Clyde Consultants.

TOPIC: Site Explorations in Iran - A Case History
Mike will present a program based on a paper he presented at the April, 1976, Annual Symposium on Engineering Geology and Soils Engineering. He will discuss various exploration methods employed on three soil and foundation exploration programs he conducted in Iran. It will be a very informative talk and also will be interesting as Mike will tell us some of the aspects of other conditions he encountered.

RESERVATIONS: Please make reservations for the meeting by 11:00 a.m., Wednesday, July 21, by calling 224-2911.

ANNOUNCEMENTS: Money - As was indicated at the last meeting, our funds are running low. Our primary operating costs are the mailing of the monthly announcements and speaker dinners. I am asking that the cost of the monthly announcements be taken up by the different firms in town. Any help in this way would be appreciated; any offers should be directed to Daryl Streiff at 224-2911.

Symposium - We are getting together a list of specific talks and speakers for the symposium to be held in October. Ken Sherrod is taking care of this; any suggestions or offers for a speaker should be directed to him. His telephone number at work is 565-5145.

Let's get this going and make it a successful event.
