

# SAN DIEGO ASSOCIATION OF GEOLOGISTS

## OCTOBER MEETING ANNOUNCEMENT

DATE: Thursday, October 28, 1976

TIME: Social Hour - 6:00 p.m.  
Dinner - 7:00 p.m.  
Speaker - 8:00 p.m.

Note: Social hour will be held in the cocktail lounge  
and will convene to the meeting room at 7:00 p.m.

LOCATION: Old Ox - Mission Valley  
881 Camino del Rio South  
San Diego, California (formerly the Jolly Ox)

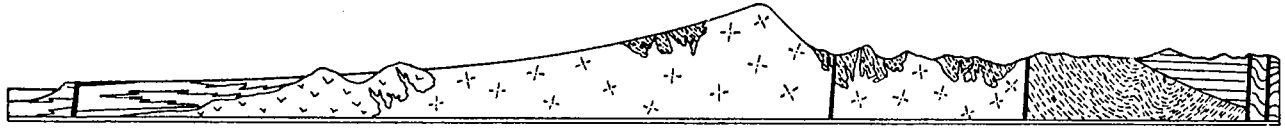

SPEAKER: Mr. Richard Simons - Mr. Simons is a 1959 graduate of M.I.T. with a B.S. in Geophysics and Geology. After about eight years with Teledyne Geotech in Texas, working on detection of underground explosions, he came west. He is working at the Institute of Geophysics at Scripps, and is involved in computer work with both the Department of Oceanography and Department of Solid Earth Geophysics. While working in the latter, he became interested in the seismicity of San Diego.

TOPIC: Seismicity of San Diego, 1934 - 1974

Mr. Simons will discuss his development of a model of seismic velocities for the San Diego area from quarry blasts and the subsequent use of this data to relocate all of the earthquakes in this area. These locations can then be evaluated and compared with the known local fault picture.

RESERVATIONS: Please call for reservations by 11:00 a.m. on Thursday, October 28 at 224-2911.

ANNOUNCEMENTS: As if you hadn't guessed, the one day seminar to be held in October never got off the ground. This was due primarily to the chairman's busy schedule (a little item called studying for the State Registration test) and the general upswing in work for the rest of the members. It perhaps can be held some time early next year.

## SAN DIEGO ASSOCIATION OF GEOLOGISTS

Meetings will be held for the rest of the year. The November meeting will be a joint meeting with the soils section of A.S.C.E.

Ken Sherrod is now with Southern California Testing Lab. Best of luck in your new job.

And then there was the group of people who took the exam(s) for State Registration and/or Certification. What a trip!
