(619) 695-2880

Secretary

John Franklin
Leighton and Associates, Inc.
4393 Viewridge
San Diego, California 92123
(619) 292-8030

Treasurer

Jim Glaze
Owen Geotechnical
9606 Tierra Grande
Suite 107
San Diego, California 92126
(619) 695-3150

The Oak Hills Landslide: Investigation, Analysis, and Repair

The Oak Hills Landslide, located in Santee, California, failed in 1978 and directly affected 19 homes. This 9.5 acre "block-glide" failure was a reactivation of a portion of a much larger ancient landslide in the Friars Formation. An investigation was performed to determine the parameters of the failure. Stability analysis utilizing conventional methods as well as the "total displacement method" were performed and evaluated. The landslide was stabilized in 1984-1985 utilizing conventional cut/fill grading.

- Speaker: James F. Knowlton
Vice-President and Chief Geologist
Owen Geotechnical
- Date: Wednesday, March 27, 1985
- Place: The Salmon House Restaurant
1970 Quirera Basin
- Time: 6:00 Cocktails
7:00 Dinner
8:00 Speaker
- Menu: Buffet with two entrees (mystery
meat and fish)
