Tel. (619) 457-2711
"A reservation made, is a reservation paid!"

- 1) As many of you have heard already, our friend and colleague, Bob Dowlen recently passed away. Bob is survived by his wife, Nancy and their two daughters, Amy and Megan. A trust fund has been established with Home Savings of America for Amy and Megan. SDAG would like to present Nancy Dowlen with contributions from our membership at a future date, possibly December. Please contribute as much as you can in memory of Bob's personal and professional attributes. The checks may be mailed to SDAG c/o Owen Geotechnical, Attn: John Franklin. The checks should be made out to: Nancy Dowlen in trust for Amy and Megan. Please DO NOT mail the checks to Home Savings. We will all miss Bob dearly. He was a competent geologist with a high standard of professional ethics.
- 2) Woody Higdon, our speaker this month, traveled in China in November of 1985. He shot approximately 7000 frames of photographs in nearly a dozen major cities, and the areas in between, in the eastern half of China. The talk will touch on some aspects of Engineering Geology, but will center primarily on the people and scenes of China. A large number of images will be used in comparison to the narrative to give people a better feel for a very different and interesting culture.
- 3) JOB OPPORTUNITY: Owen Geotechnical is seeking a Registered Geotechnical Engineer (California) with at least 12 years experience, to direct geotechnical services at their Laguna Hills office. Interested applicants should send their resume and salary requirements in confidence to:

Mr. Martin Owen
Owens Geotechnical
9606 Tierra Grande, Suite 107
San Diego, California 92126

No Phone Calls, Please

- 4) JOB OPPORTUNITY: Owen Geotechnical is seeking engineers and geologists with at least 2 to 3 years experience in land development and/or hazardous waste investigations to work at their San Diego and Laguna Hills offices. Please send your resume and salary requirements in confidence to:

Mr. Martin Owen
Owen Geotechnical
9606 Tierra Grande, Suite 107
San Diego, California 92126

- 5) In response to a growing number of requests, the Department of Geological Sciences at San Diego State University will attempt to make its Masters Degree program more accessible by offering graduate courses in the evening. Beginning next January with the Spring 1988 semester, graduate coursework will be available on Monday, Tuesday, Wednesday, and Thursday evenings. If you desire information on entering the M.S. program, please call Marylou at 265-5586 or write the Department of Geological Sciences, San Diego State University, San Diego, Ca. 92182-0337
