SAN DIEGO ASSOCIATION OF GEOLOGISTS

JOINT AEG, SAN DIEGO ASSOCIATION, SOUTH COAST
GEOLOGICAL SOCIETY MEETING

September 9, 1975
Tuesday

Dear Members:

As you are aware, the San Diego Association of Geologists August meeting was not held. This was done in hopes that many of us would be in a position to participate in the proposed joint meeting. This meeting will be held at the Airporter Inn in Orange County (directly across from and east of the Orange County Airport). Mr. Charles Yelverton, So. Cal. AEG Section Chairman is arranging a special room for the cocktail hour from 5:30, and he has urged all of us to invite our wives for this special occasion. Dinner will probably start around 7:00 pm, with an outstanding speaker scheduled for around 8:00 to 8:30 pm.

The speaker, Don O. Asquith, principal geologist for ENVICOM, will be discussing their preparation of the Wrightwood Seismic Safety Element. His discussion will include slides showing their method of investigating the many faults of the area, the relationship between active faulting and vegetation anomalies, the affects of Senate Bill 5, the repeal of the Alquist-Priolo Act for 1-story woodframe structures, and all the political moves required to implement the seismic safety element.

Because of the distance required traveling to the meeting, those who are interested please call Dennis Hannan and he will try to get interested parties together on transportation. Also because of the large turnout being anticipated, reservations should also be called in to Dennis by Friday, September 5th at 565-1955. When calling specify whether you will also be needing transportation and leave a phone number where you can be reached.

This sounds like a meeting well worth attending and it is hoped that more than a few of us will attend.

Leave @ 4:00 or 5:00 with Bill Hansen
