## ANNOUNCEMENTS:

1. Call for Posters! The December SDAG meeting will be a poster session where you can display geologic/geotechnical work that you or your company would like to share. If you have a poster that you would like to display, please contact Diane Murbach at (619)966-8672.
2. Call for Raffle Donations! SDAG holds its annual raffle during the December meeting and is looking for contributions. If you would like to contribute maps, books, or ???, please contact Diane Murbach at (619)966-8672.
3. SDAG would like to thank Bill Elliott for (once again) being a SDAG corporate sponsor!!! SDAG is still looking for other corporate sponsors to help in our yearly expenses. Corporate contributions are used to sponsor students at our monthly meetings and to upgrade our equipment, etc. If you or your company would like to become a corporate sponsor and be recognized in our SDAG newsletter, directory, and at the following month's meeting, send a minimum \$100 contribution to SDAG c/o Lyne Perry at Leighton and Associates. (Thanks, Bill!)
4. 1991 SDAG membership dues are due in January. A membership form is attached. Please complete and mail to Lyne Perry at Leighton and Associates. Dues may also be paid at the monthly meetings.
5. The 1990 SDAG publication is currently being assembled based on the papers already submitted. The final deadline for submitting a paper is December 28, 1990. If you are currently working on a paper and have not yet submitted, or have become inspired by the recent field trip, please contact John Hoobs at Geocon (619-558-6900). John will be calling all procrastinators, so hurry up!
6. Believe it or not! The 1989 joint SDAG/SCEPP publication is on its way! The 'Proceedings from the Workshop on the Seismic Risk in the San Diego Region: Special Focus on the Rose Canyon Fault System' will be here by the end of the year!
7. Request for info! Martin Stout is compiling data from the last 50,000 years to use in refining climatic and geomorphic models of southern California. If you have any absolute dates from this period which you can share and may help interpret rates of deposition or erosion, he would appreciate the info! Send to Martin Stout, Geological Sciences, Cal State University, Los Angeles, CA 90032-8203.
8. The SDSU Department of Geological Sciences is continuing to offer evening classes in response to the request of locally employed geologists and SDAG members. Spring 1991 classes start on January 28, 1991 and will include Exploration Techniques in Ground Water Geology (GS 653) and Geology of Clays (GS 615). Take advantage of small class sizes - if enrollment in evening classes declines significantly, they will be discontinued! Call Dick Berry at (619)594-6394 or the Department office (619)594-5586 for more information.
9. Deadline for announcements to be included in the January newsletter is December 28. Please submit in writing to Lyne Perry at Leighton and Associates (FAX (619) 292-0771).
